

Adobe Creative Cloud Apps for Students

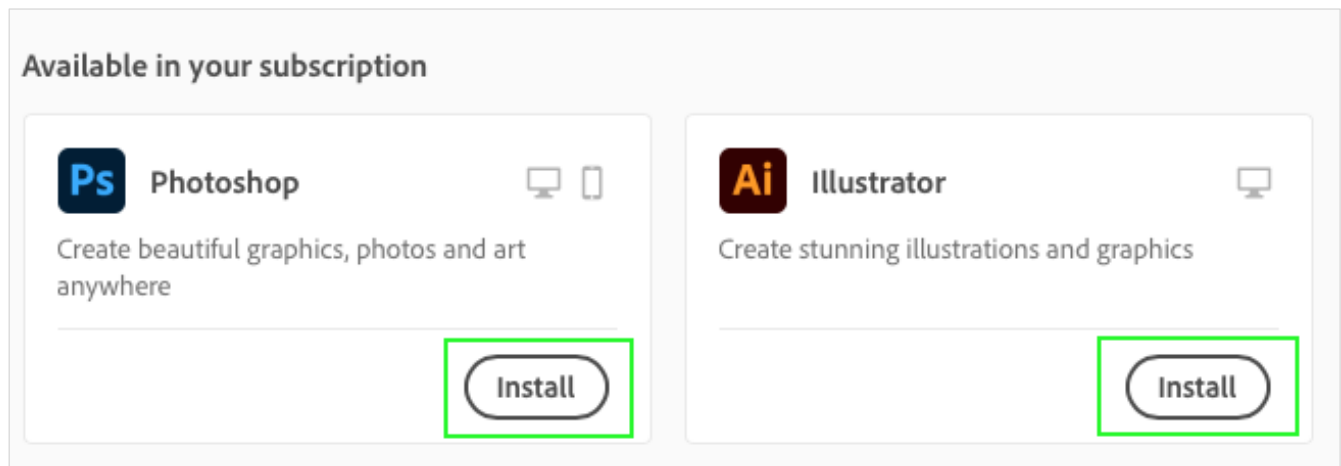

The University has now purchased Adobe Creative Cloud Desktop Apps for students to use at home. This is to ensure all students that downloaded Adobe applications during the initial Covid-19 closure of the University can continue to use the applications.

If you already have personal Adobe CC apps installed on your computer, sign out and sign back in again to activate the apps with your temporary licence. Enter your university credentials, using the format w1234567@westminster.ac.uk (do not use @my.westminster.ac.uk). For more information, see [Activate and deactivate Adobe Creative Cloud apps](#).

If you do not have access to Adobe CC, please contact the [IT Service Desk](#) requesting access.

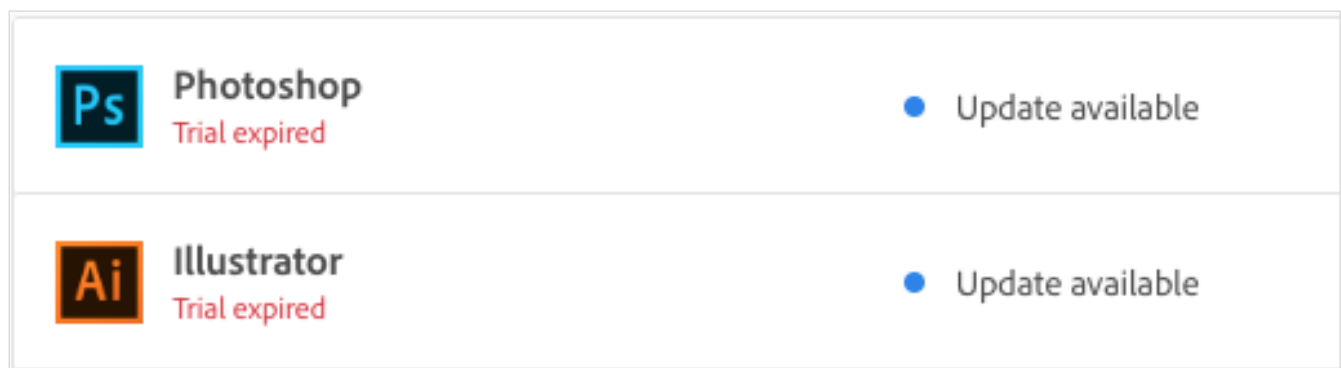

How do I know if I have already been granted access to Adobe CC Desktop Apps for students?

When you log in to [Adobe CC](#), you will be presented with licenced versions of the applications for you to install as shown below.

How do I know if I have not been granted access to Adobe CC Desktop Apps for students?

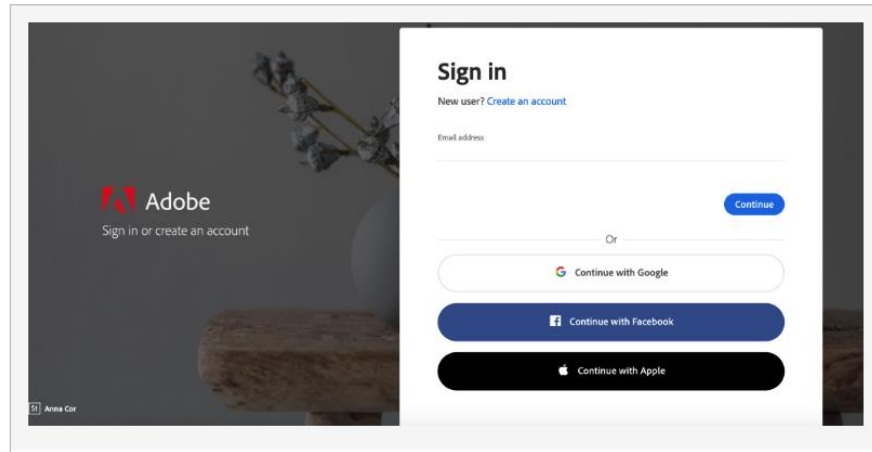

When you log in to [Adobe CC](#) you will be presented with a 'Trial expired' message, in which case log a call requesting access to Adobe CC Desktop Apps for students to use at home.

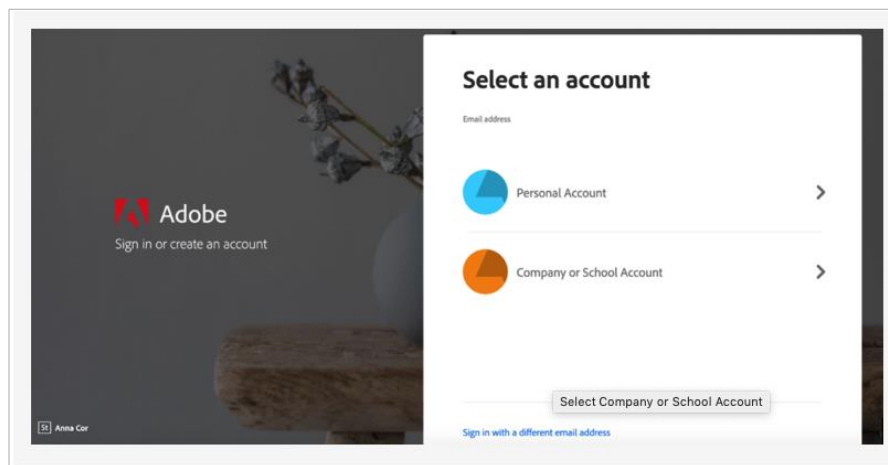

Download and install Adobe Creative Cloud apps

Note: you do not have to follow these steps if you have already downloaded Adobe apps during Covid-19 lockdown.

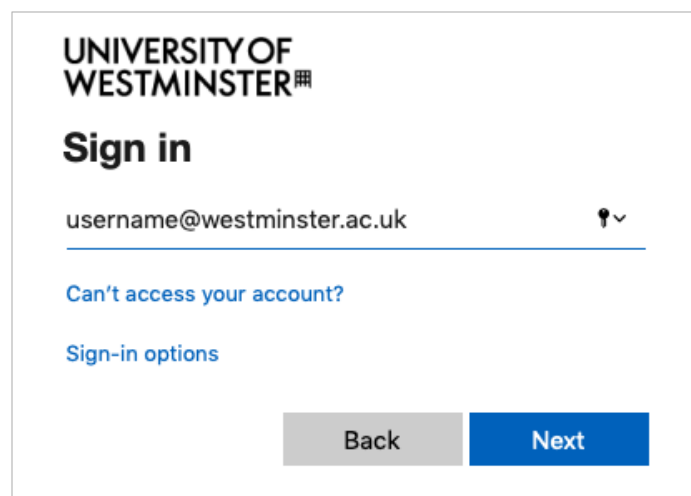

- Sign in to the [Adobe Creative Cloud](https://adobe.com/creativecloud) webpage using your University account

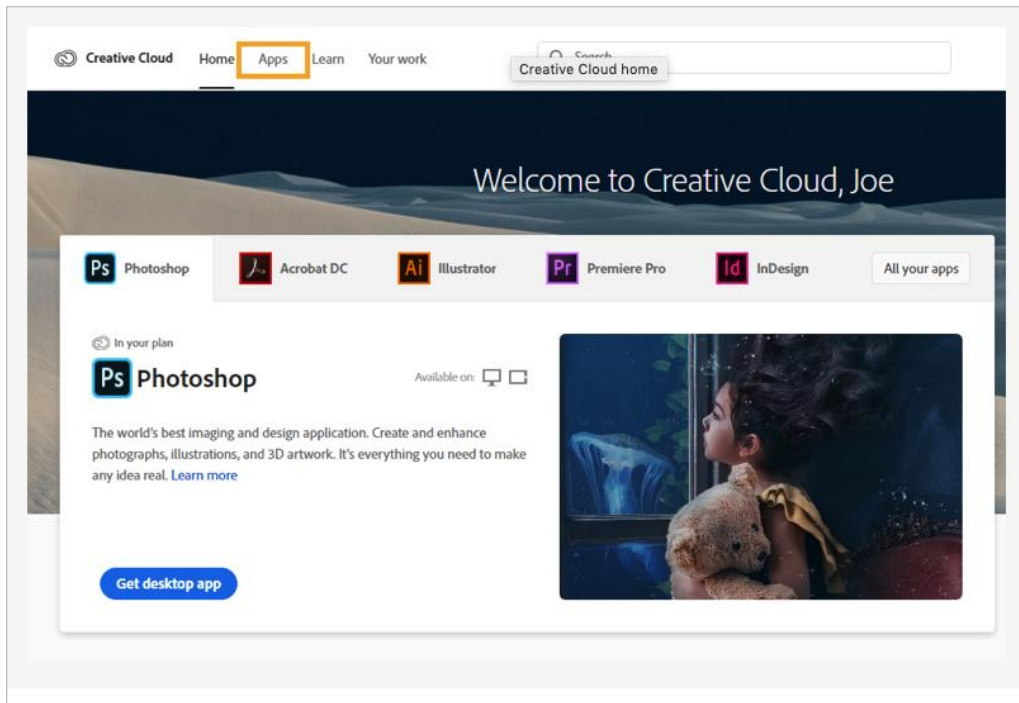

- If prompted, select 'Company or School Account' and enter your password

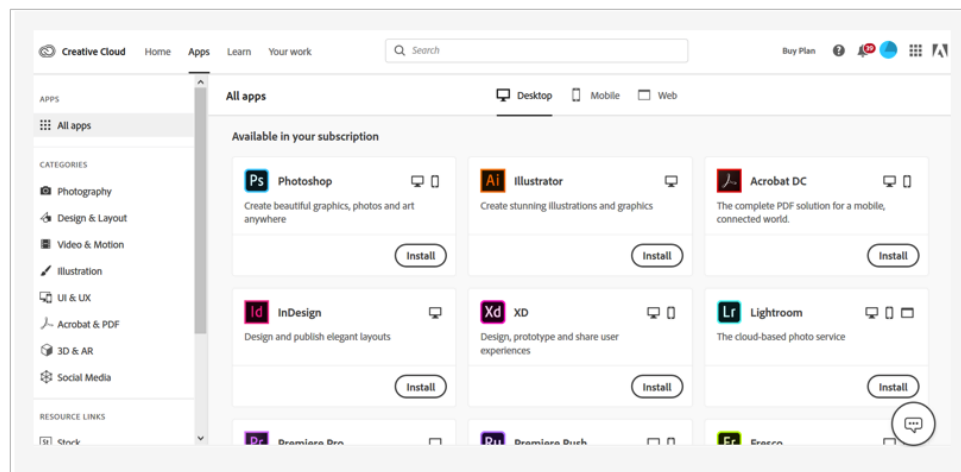

- If another sign in screen appears, enter your university credentials, using the format w1234567@westminster.ac.uk (do not use @my.westminster.ac.uk).

To view all apps, click 'Apps' on top of the page

- Click 'Install' for the app you want to download. Follow the onscreen instructions to complete the installation.

- Once the installer window opens, sign in to your Adobe account with your University credentials. The Adobe Creative Cloud desktop app launches automatically and installs the app.

For more information on how to download or install apps, see [Download and Install your Creative Cloud apps](#).
